Controlgear Products (Pty) Ltd's BBBEE Status

Towards the end of 2017 Controlgear Products (Pty) Ltd BBEEE partner was obliged to withdraw from the business in order to take a government position. As a result, Controlgear Products (Pty) Ltd is currently non-compliant and is yet to be re-audited in order to ascertain their compliance level.

Controlgear Products (Pty) Ltd has restructured the company to accommodate a 51% black shareholding and should be a level 3. This restructuring has concluded, and the company is now in the process of being audited in order to provide a BEE Certificate. The process will be concluded between late September and mid-October.

Thank you for your understanding and patience during this process.

Regards

Barry Coetzee

Managing Director
Controlgear Products (Pty) Ltd
